

History: In 2003 Hope College of Business, Science and Technology was Founded by Dr. Minas Hiruy and was established under the aegis of Hope Enterprises. The college was designed by Geluk en Treurniet Architecten, a Dutch architectural firm, with all the important features befitting an integrated campus. The campus was dedicated by the President of Ethiopia in 2006. Its first class of students was admitted in September 2011.

Students in front of the college library

Community: Hardworking, ambitious and collaborative students from around the country. Many have taken the initiative to form student clubs for various learning and recreational purposes. An active student government exists to promote student concerns. Staff and faculty are committed to the success of the student body.

Objectives:

- ▶ Develop a highly competitive academic community with a focus on learning, inquiry, reflection, intense pursuit of knowledge, and intellectual achievement that is marked not only by knowledge transfer but by intellectual development.
- ▶ Develop internationally-competitive professionals.
- ▶ Challenge students to confront their values, attitudes, and behavior with an ethical perspective that emphasizes responsibility, personal integrity, public interest, and investment in the community.
- ▶ Link the students of the college with the community, for mutual learning and progress.

**HOPE
COLLEGE OF
BUSINESS,
SCIENCE AND
TECHNOLOGY**

*Developing
leadership
for a
world of
hope.*

Hope College of Business, Science and Technology is located on 5 hectares of land in Nefas Silk Lafto Subcity, Lebu, Addis Ababa. On our beautiful, green campus with quiet, light-filled classrooms and lecture halls, students are offered competency-based education in eight departments.

Vision: *To contribute to the renewal and transformation of society through knowledge and value-based education and graduates who can make a difference using what they have gained in the university college.*

Mission: *To provide aspiring leaders the option of pursuing world-class education without leaving their country and cultural setting; enabling the development of leaders capable of independent work, problem solving, analysis, innovation and reflection, able to make a difference in the development of society and sustainably interact with nature.*

Hope College of Business, Science and Technology is a non-profit institution providing top quality education.

Need-based scholarships are offered to bright students lacking means of their own support. Fee paying students are also admitted to both daytime and extension (evening) programs.

All students must pass the college entrance examination of the Ministry of Education to qualify for admission.

Learning methodology and resources

Hope College uses competency-based education (CBE) as its official mode of instruction. Through combined emphasis on knowledge, skills and personal development, CBE prepares students to be competent professionals. Various teaching approaches and learning resources

(such as digital interfaces, lectures, tutorials, student projects, discussions, laboratories, workshops, internships and research exercises) are combined for optimal learning and skill development.

Different areas in the library.
